The Key principle for healing diseases
From Mrs. Ellen G White.
Diabetes, Cancer, Arthritis, High Blood Pressure, Cataracts, Chronic Fatigue, 98 percent of Diseases.

In order to have good health, we must have good blood; for the blood is the current of life. It repairs waste, and nourishes the body. When supplied with the proper food elements and when cleansed and vitalized by contact with pure air, it carries life and vigor to every part of the system. The more perfect the circulation, the better will this work be accomplished. CD 271

The impurities of the body, if not allowed to escape, are taken back into the blood and forced upon the internal organs. Nature, to relieve herself of poisonous impurities, makes an effort to free the system. This effort produces fevers and what is termed disease. But, if those who are afflicted would assist nature in her efforts by the use of pure, soft water, much suffering would be prevented. {CH 61.2}

Maximum Healing depends on two factors. The first factor is cleanup and the second is immune boosting. Clean up means reducing as much as possible the poisons that are polluting your internal biochemistry. These toxins cause all the big, life-threatening illnesses: heart disease, cancer, high blood pressure, and adult-onset diabetes. P. 31 Maximum Healing, H. Robert Silverstein, MD

Those who are not in health have impurities of the blood. --T., V. III, p. 70. {HL 180.2}

Pure water to drink and fresh air to breathe invigorate the vital organs, purify the blood, and help nature in her task of overcoming the bad conditions of the system. --H. to L., Chap. 4, p. 55. {HL 187.1}

In the book “Real Cause Real Cure” on page 142 Dr. Jacob Teitelbaum MD. Agrees that purify the body of the toxins is the 8 real cure to a lot of our health issues. The liver helps to purify the blood, about two quarts every minute. If the liver quite doing its work we would die in one day. On page 91 Dr Jacob also states that Natural remedies such as nutrients, and herbs work with bodily systems to help the body heal.

The Lord has given some simple herbs of the field that at times are beneficial; and if every family were educated in how to use these herbs in case of sickness, much suffering might be prevented and no doctor need be called. These old-fashioned, simple herbs, used intelligently, would have recovered many sick who have died under drug medication. {2SM 294.1}

In order to make a good quality of blood, we must have the right kind of food, prepared in a right manner.--T., V. I, p. 682. {HL 181.1}

Sickness and degenerative disease are nature's way to tell us that our body is toxic and needs to be detox, cleansed, or for us to purify the blood. Disease is like the red engine light coming on in a car telling us that we need to cleanse our body of toxins in the system. The liver is burdened in its effort to cleanse the blood of impurities, and illness is the result.  {MH 240.3}

There are herbs that are harmless, the use of which will tide over many apparently serious difficulties....., sickness would be rare instead of common. An ounce of prevention is worth a pound of cure.  {2SM 290.2}

Christ came to restore? Christ's remedies cleanse the system...There are many simple herbs which, if our nurses would learn the value of, they could use in the place of drugs, and find very effective. 2sm 298

The impurities of the body, if not allowed to escape, are taken back into the blood, and forced upon the internal organs. Nature, to relieve herself of poisonous impurities, makes an effort to free the system, which effort produces fevers, and what is termed disease. But even then, if those who are afflicted would assist nature in her efforts, by the use of pure, soft water, much suffering would be prevented. But many, instead of doing this, and seeking to remove the poisonous matter from the system, take a more deadly poison into the system, to remove a poison already there.  {2SM 460.2}

Our Saviour is the restorer of the moral image of God in man. He has supplied in the natural world remedies for the ills of man, that His followers may have life and that they may have it more abundantly. We can with safety discard the concoctions which man has used in the past. {2SM 289.1}

The Lord has provided antidotes for diseases in simple plants, and these can be used by faith, with no denial of faith; for by using the blessings provided by God for our benefit we are cooperating with Him. He can use water and sunshine and the herbs which He has caused to grow, in healing maladies brought on by indiscretion or accident. We do not manifest a lack of faith when we ask God to bless His remedies. 2SM 289

A legendary cancer doctor Mitchell Gaynor a former chief resident at Sloan–Kettering Gaynor saved lives that others had given up on. He is the type of doctor that cancer doctors go to when they have cancer. Doctor Mitchell Gaynor added a herbal remedy that he used on people that had been sent home to die and he was helping them survive. P. 292 The Secret History of the Cancer War. This is not intended for medical advice. Use the detox and the natural along with your doctor for healing or for a healthy lifestyle. The best way to fight cancer or other diseases is to live to reduce your risk.
God’s 13 Principles for Healing and a Healthy Lifestyle.

1. “Do your breast self exam on a regular basis, and don’t miss your regular doctors’ check-ups.” Men and women alike can use this to help find lumps. Men need to check their bodies in other areas as well for cancer. Make sure you are familiar with your body and the areas where cancer may grow.

2. “Cleanse the body on the inside.” Fifty-seven of the top physicians in Great Britain have found that 98% of ailments are caused by toxins in the body.

3. “Eliminate the foreign organisms in the body that sap your energy and help weaken your immune system.” Many diseases and illnesses, like chronic fatigue syndrome, allergies, and cancer, can be traced to foreign organisms. Just about all of us have them, yet we don’t realize it.

4. “Give your body the nutrients it needs to rebuild itself.” Your body rebuilds itself on a regular basis, and it needs the proper, adequate amounts of vitamins and minerals.

5. “Be sure to include the vitamins and minerals that can be used to help with fighting and preventing diseases, and cancer.”

6. “Spend as much time in the fresh air as possible.” The fresh air helps to keep the free radicals on hold, assuming, of course that it really is fresh air and not smog.

7. “Stay away from chemical smells as much as possible.” Yes; this also means household cleaner smells. Make sure you have the windows open when cleaning. Sleep with the windows open when you can.

8. “Stop putting chemicals into/onto your body.” We put all kinds of chemicals into and on our bodies every day. Pay attention to ingredient labels. You cannot stop putting the chemicals into or on your body altogether, so the best policy is to reduce them and to use the cleansing UL De Tea often. Use the herbal tea to purify your blood.

9. “Exercise is a vital part of the agenda of having good health.” Guess what? It is ok to sweat!

10. “Work on strengthening your immune system and not weakening it.” Many Doctors tell us that the immune system may kill cancer cells up to 10,000 times a day . . . if it hasn’t been weakened.

11. “Drink plenty of good water” not some chemical acidic soda.

12. “Ask your pharmacist about reactions between foods, herbs, supplements, and your medicines.” Many herbs do not mix well with medicines, and some may have dangerous reactions with others. Your pharmacist is trained to know the medicines and what reactions may occur.

13. “Eat foods known to have cancer-fighting properties.” There are foods that help reduce the risk of cancer, including broccoli, cabbage, almonds, onions, and many more. Eat foods that help purify the blood and cleanse the body on the inside.

I am a Seventh Day Adventist Christian if I had to go through the brain cancer war on my own without the peace and power from God I’d be lost. S.D.A. Have stuck with our Baptist and Methodist Heritage. We Stand on our Belief in Christ like most Christians: Like the song from Newsboy’s You have heard lot’s of times on the radio or maybe like I did, you went to the Newsboy’s concert at Cornerstone Church in Madison. We Adventist have much of the same beliefs as most Christians. We believe in God the Father, Jesus Christ, and the Holy Spirit. Christ death and resurrection and the blessed hope of his return. And 1 Cor 3:16 Christ and the Holy spirit abiding in us. The Bible as the rule of faith and Christian union and supreme. The baptism by immersion, The communion service with bread and grape juice and also the foot washing like Christ did in the upper room. We work with other Christians for religious and Christian Liberty. Yes Seventh Day Adventist believes that Saturday is the day God wants them to keep holy because it was the day God Set aside after he created the world. Sunday Christians believe god wants them to keep Sunday because of his Resurrection. We are both still following Christ and teaching about his abiding in our lives. Let’s work together to be in heaven. Mark 9:38-40 Adventist believe that this text teaches that Christians from all churches that have the abiding of the Holy Spirit and they are abiding in Christ will be saved. We as Christian’s need to stand together for Religious liberty and to gain the Blessed hope of being with Christ in Heaven. Mark 9:38 – 40 “John answered him saying Master, we saw one casting out devils in thy name, and he followeth not us: and we forbad him because he followeth not us. 39 But Jesus Said, Forbid him not for there is no man which shall do a miracle in my name, that can lightly speak evil of me. 40. For he that is not against us is on our part. (side) KJ. “Anyone who is not against us is for us.” New Living Translation.

SDA’s have been one of the longest living people groups ever studied. It has been noted that the men live an average of 7 years longer than other men. The World Health Organization, US National Institute of Health, National Cancer Institute, National Institute of Aging, American Cancer Society, Harvard Medical School, Governments of Norway and the Netherlands and many other countries and many academic institutions have admirations and studied the Seventh Day Adventist because of the long life and health that they have. Much of which can be attributed to the healthy lifestyle they live. However Here is a idea that They have all missed which E G White talks about in some of her writings, “ about purifying the blood and removing the impurities to help fight diseases”. She shares a lot about removing the toxins in the body. When the Adventist start using this, their long life will be even longer. You are getting it before some of them. She was just a Christian writer that had a very close relationship with the abiding presence of God and the Holy Spirit in her life. Giving the body the nutrition it needs to rebuild itself and purifying the blood or detoxing the system is just two of the principle to use in God’s health plan. There is an herb powder multi vitamin along with a detoxing herbal tea that can be used to help fight all types of health issues that do not have any disclaimers about bad side affects.
